

Staff Size by Role Group

Mean number of persons per team-season by primary role. 1999-2006: staff box of the Wikipedia team-season article; 2007-2025: Wikipedia staff templates (three revisions per season). Excludes the 22 article-era team-seasons without a staff box. The 2007 dip in personnel and support staff is at the first template season and is likely a source artifact.
